## Declaration of Micro-Hybrid Electronic GmbH to the WEEE-regulation according the guideline 2012/19/EU (WEEE)

Products which are manufactured by Micro-Hybrid Electronic are no standalone devices and so they are a part of a bigger unit. Usually they are further processed, assembled, installed or dismantled by professionals. In accordance with article 2, paragraph 1 of the guideline 2012/19/EU the products of Micro-Hybrid Electronic aren't electronic devices corresponding to the WEEE-regulation.

**By that fact Micro-Hybrid Electronic refrains from the registration of all products at the foundation Elektro-Altgeräte-Register (EAR). It is up to our customers to do the registration of their products at EAR.**
